

# Seeing the Difference: Dr. Lee Katzman's Dedication to Precision

**DR. LEE R. KATZMAN** is a board-certified, fellowship-trained eye surgeon with a deep passion for ophthalmology and enhancing vision to its fullest potential. He is the chief surgeon and owner at Alvarado Eye Associates, a respected practice that has served the community for over 47 years, and is honored to be recognized once again among San Diego Magazine's Top Doctors. As one of Southern California's premier cataract and LASIK surgeons, he annually performs more cataract and lens-based surgeries than any other provider in San Diego County and has received the SHARP Healthcare CORE Pillars of Excellence award, given to only seven out of 18,000+ employees and physicians each year.

He remains at the forefront of the specialty, frequently performing Laser surgeries and advanced technology lens implants ahead of his peers. He takes pride in being a principal investigator in numerous research trials every year with results that are presented to the international ophthalmology community. His interests include cataracts, clear lens exchanges, LASIK, PRK, EVO ICL, and keratoconus.

Dr. Katzman's expertise extends beyond skill and experience; he's deeply committed to his patients. "When you perform the most advanced refractive surgeries, you have the unique opportunity to truly offer tailored medical care. Every patient deserves access to the best, and I relentlessly strive to make that a reality."

"Every patient deserves access to the best, and I relentlessly strive to make that a reality for them."
